Dedication

Mrs. Hazel Diffrient

During my years in Food Service at Richland School, we have grown from an elementary enrollment of 200 in 1954, to an elementary and high school enrollment of 1,227 students today.

Throughout these years, many changes have taken place, but one thing has remained the same — There is still that close cooperation between students, teachers, staff, and parents which makes a school number one. This factor alone has helped the cafeteria staff do a better job.

I shall always remember remarks from elementary students such as: "Ms. Hazel, did you wash the grapes?" or "Gee you sure are a good cooker!" high school students saying: "Are you giving seconds?"

All these things will be most cherished memories of mine for years to come, and I shall always be grateful for being a part of Richland School.

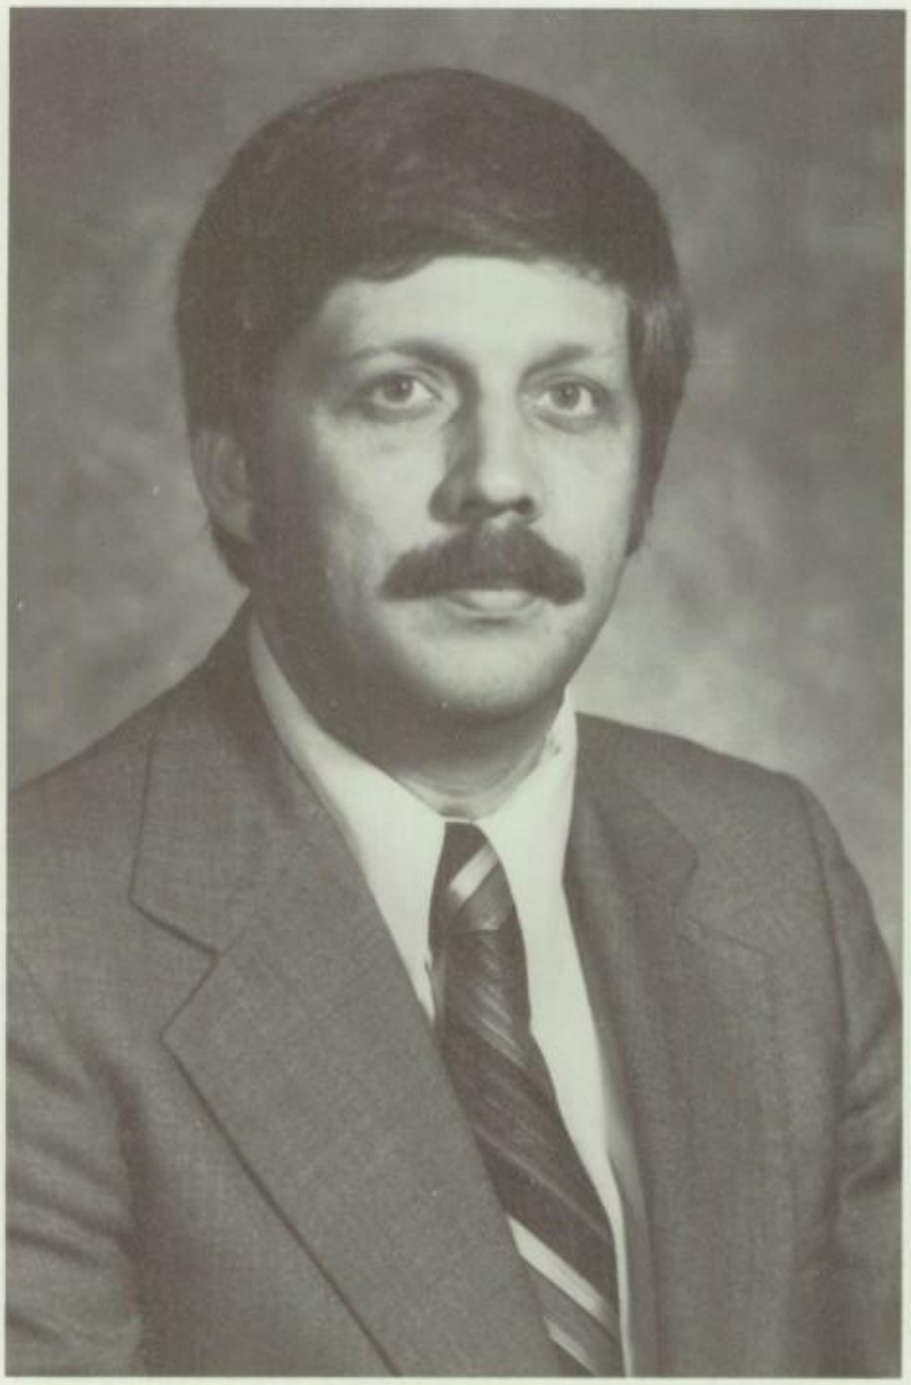
Administration



Mr. Robert E. Luckett
Attendance Center Principal

Serving as Attendance Center Principal for the past year has been a most rewarding and enjoyable experience because of our high quality education and dedicated professional staff. As I have worked with the students and parents of this school, I have witnessed total support and unlimited cooperation given to each and every project undertaken. Richland is the type school every community desires and an asset to all who live in this area. Parents, teachers, and community leaders have united to make this a strong educational facility. To you, I offer my deepest gratitude and sincere appreciation and shall look forward to the years ahead. May God Always Bless You!

Mrs. Mae S. Williams
Elementary School Principal

How can I begin to tell you how much I appreciate your efforts in making our school an outstanding one?

This has been a great year of changes, adjustments and progress. The changes we have taken in stride, thanks mainly to the cooperation and understanding of students and faculty who have worked together for the good of our school. The adjustment has been well made by all of us. The progress has been in all aspects of school life as we continue to grow, to expand and to work toward our goal for the finest possible education for every student in our school in relation to the individual child's needs and abilities. I sincerely feel that our school is the finest school that you will find anywhere.

YOU ARE A PERSON...

It was never intended that an individual should be lost in a crowd or become a number on a computer card. At Wesley College everybody is somebody. The small size of the college insures that each student receives personal attention which is almost totally lacking in many of the larger colleges and universities.

Wesley College occupies a beautiful forty-acre campus located in Florence, Miss., twelve miles south of Jackson, the state capitol. The proximity of the campus to Jackson, a growing metropolis of 500,000+, provides opportunity for employment, consumer buying power in a competitive market, and cultural benefits available only in a large city. Yet the campus is in a rural atmosphere with the advantages of a small town.

What can I say that I'm glad that the chance to get to know each other, we'll get to know more about each other. I hate that I won't be here next year. I'm gonna miss you a lot. You can take my place at senior college and I'll take your place at Stanford. You know you've only got 4 more years left to make those the best years. I have been as great as mine and that's why I'm glad there is more college and you better try
